

CIMUSET STRATEGY 2025–2028

**BUILDING A MORE CURIOUS, INSPIRED,
AND CONNECTED WORLD**

MISSION

CIMUSET is a globally welcoming community of science and technology museums, supporting the stewardship and sharing of tangible and intangible heritage and engaging with the challenges shaping the field and its future.

VISION

CIMUSET will be the global voice for science and technology museums, promoting their vital role in shaping a more curious, inspired, and connected world.

OUR VALUES

We are inclusive and collaborative.

We are curious and committed to learning.

We are community-driven.

ICOM Values

We are international in outlook.

We are professional in focus.

We are collaborative in practice.

OUR COMMUNITY

CIMUSET serves institutions that inspire, educate, and engage citizens with science and technology through collections, research and experiences.

STRATEGIC AREAS

- 1. Accessibility**
- 2. Serving as a Bridge**
- 3. Towards a Sustainable Future**
- 4. Strengthening our Foundation**

ACCESSIBILITY

Through open dialogue and collective action, CIMUSET champions accessibility as a core value of science communication. We work to remove barriers – cultural, physical, and institutional – so that science and technology museums can truly serve everyone.

SERVING AS A BRIDGE

Through dialogue and collaboration, CIMUSET connects science and technology museums across the Global North and South to advance shared understanding and solidarity. We champion museums as spaces where diverse knowledges meet, challenging boundaries between science and society.

TOWARDS A SUSTAINABLE FUTURE

CIMUSET champions sustainability as a core principle, shaping how science and technology museums work and what they stand for, advancing their role in building a just and sustainable world.

STRENGTHENING OUR FOUNDATION

By reinforcing governance and cultivating an engaged, collaborative board culture, CIMUSET will ensure continuity, transparency, and excellence in its programmes and activities.
